ACCESSORIES

Complement your Porcelain paving projects with our wide range of **accessories** and **bespoke profiling service**

Pedestal System

Perfect for raised floors and balconies.

Overlay existing areas quickly and simply. The system simplifies the tile-laying process, allowing for millimetre adjustments.

The height of the floor can be adjusted without lifting up the tiles, just by turning the central column. The system simplifies the tile-laying process, allowing for millimetre adjustments with no need for jointing.

Step Units

Perfect for connecting flat areas of paving to different levels.

A simple and effective solution for creating seamless edges and steps in your outdoor space.

Clip-based Fastening System

Perfect for laying porcelain paving slabs vertically. Visible and Invisible systems available.

Clip-based fastening systems guarantee long-lasting tile-cladding on façades, preventing the risk of loosened tiles over the course of time if the adhesive's bonding capacity is weakened through permanent exposure to the elements.

BESPOKE PROFILING

Enhance your landscaping projects with premium finishes with Tippers Bespoke Profiling Service

- ✓ **Bespoke Edge Profiling Options**
- ✓ **Machined Accuracy & Consistency**
- ✓ **Allows for detailed designs and varied aesthetics**

Tipplers Choose between Nylon and Stainless clips for varying gap sizes in your installation

DRIFTDEK GREY | PROJECT BY SWARBOURN LANDSCAPES

COMPOSITE DECKING

Durable, low-maintenance, eco-friendly alternative to wood, perfect for outdoor living spaces

DriftDek

10 YEAR WARRANTY

Modern outdoor decking with wood grain texture. Perfect for enhancing outdoor spaces. DriftDek Range offers non-capped boards that would continue to weather once installed. It will take around 3-5 months for the full weathering to occur, and the boards will see some colour pigmentation change as well as marks/spots from the elements of the surrounding environment.

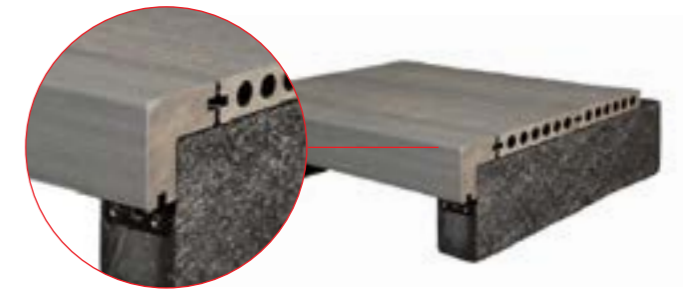

3600 x 142mm | Thickness: 22mm

CORE EDGE

Designed and manufactured in the UK, our CORE Edge flexible steel edging is the ideal way to create smart edges along garden borders, lawns, patios, pathways and driveways. Available in BROWN, ANTHRACITE, BLACK and CORTEN.

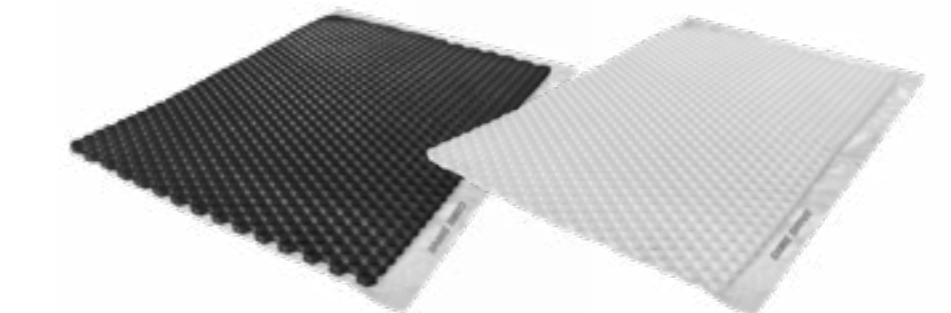

Available in 65mm, 100mm and 150mm Depth

CORE DRIVE & PATH

CORE DRIVE & Path Gravel Stabilisation Grids provide a durable and permeable solution for stabilising gravel driveways and pathways. Featuring a built-in weed membrane, they prevent weed growth while allowing water drainage. Their strong honeycomb structure ensures gravel stays in place, reducing rutting and spreading.

Available in DRIVE (for driveways) and PATH (for pathways)

ROCK-TITE

Lifetime Guarantee with Rock-Tite Paving System

Enhance your outdoor spaces with **Rock-Tite**, the ultimate paving solution for porcelain and natural stone. Designed with longevity in mind, this 3-part system ensures your patio, driveway, or garden paving stays stunning and secure for years to come.

The Rock-Tite system requires **Less Dig Off** and **Muckaway, Less subbase, Less mortar** to mix with a minimum bed depth of **25mm** compared to traditional sand and cement mix of 50mm.

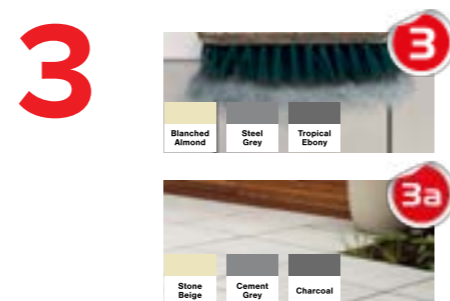

Porcelain Primer

Creates a powerful bond between the paving and base, ensuring stability and longevity

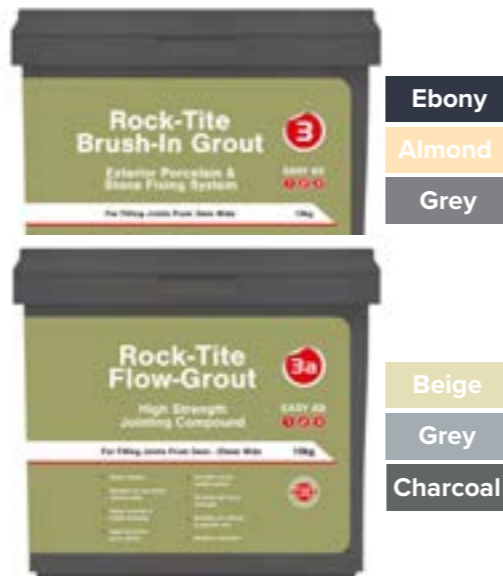

Mortar Additive

Infused with advanced fibres and polymers, it delivers exceptional strength and durability, providing a solid foundation for your paving

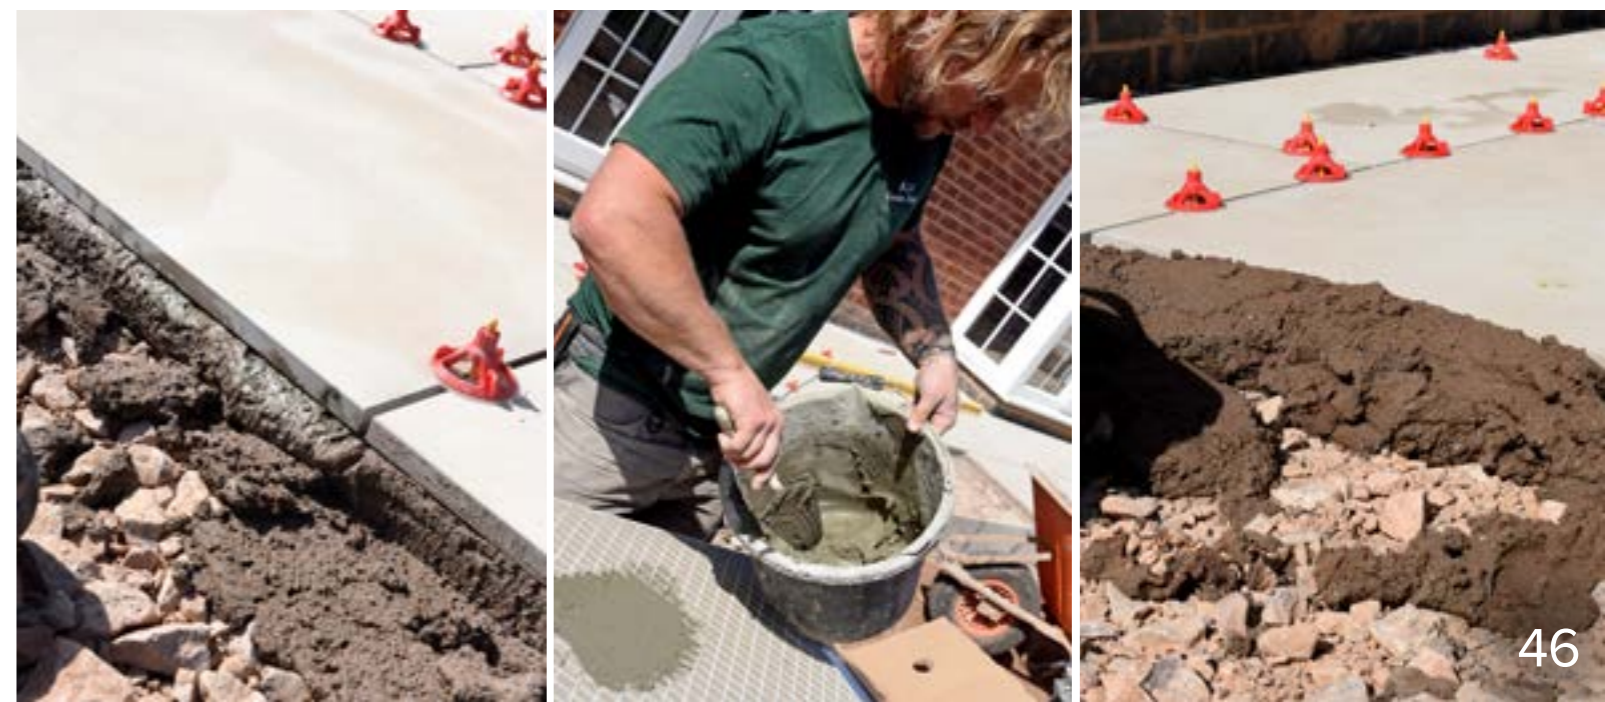

Brush-In Grout

Offers a seamless finish and keeps your paving looking flawless

With a lifetime system guarantee, **Rock-Tite** is the number one choice for outdoor spaces. Invest in your home with confidence, knowing your paving will stand the test of time.

PRECISE CUTTING AND MITRES

Porcelain Saw

Porcelain saw: Efficient, safe for all tiling, reduces breakage, versatile for DIY/pro use.

REUSE, RECYCLE

Mini Crushers

Recycle slabs into hardcore; eco-friendly, cost-effective.

Watch a video

POWER LIFT, NARROW FIT

Bulk Bag Lifter

Lifts bulk bags, natural stone or porcelain crates up to 1000kg; fits narrow paths.

SAFE SLAB LIFTING

Grabos

Portable lifter: Easily handles heavy, large slabs. Available to buy or hire.

Watch a video

CLEANING MADE EASY

Berta Sponge Machine

Effective at removing grout from paving floors during grouting.

FOR A SMOOTH FINISH

Power Floats

Popular for resin bound surfaces, this compresses and finishes the surface.

MIX. BUILD. EXCEL

Pan Mixers

Ideal for resin driveways, it guarantees high productivity and the best mixing results.

PORCELAIN PAVING

DO

- Lay slabs on a full mortar bed
- Hire reputable patio installation specialists
- Verify same batch codes on all packs
- Use Slurry Primer on sand and cement beds
- Cut with equipment and blades fit for porcelain
- Use high-quality, non-porous grout or jointing compound

DON'T

- Don't butt joint porcelain paving; maintain minimum 4mm joint width
- For porcelain tiles over 600mm, use a maximum one-third/two-thirds bond
- Avoid laying paving without understanding the process
- Prevent grout from setting on porcelain surface to ease removal

NATURAL STONE

DO

- Visit a local branch to see paving; brochure colours may vary
- Hire reputable specialists for patio installation
- Apply Slurry Primer for natural stone paving adherence
- Choose paving suitable for its intended use
- Inspect paving prior to installation
- Mix slabs from different packs for colour consistency
- Use quality cleaners as per instructions
- Use high-quality cutting tools to prevent damage
- Ensure proper slope for water drainage
- Lay paving on a full, void-free mortar bed
- Follow instructions when using sealers; choose quality brands

DON'T

- Avoid selecting paving from small samples; view at a branch for true colour
- Don't lay paving without understanding the process
- Avoid using spot bedding beneath paving
- Do not clean paving with acid-based cleaners
- Don't butt joint paving; use recommended jointing methods
- Always cut paving with dust suppression methods

Full slab with decorative aggregate border
Avoids cuts and has a more uniformed shape. It can also be used as drainage

Drainage – ACO Threshold Drain with corner units
For a high quality, premium finishes. Choice of 4 colour grates to complement your space

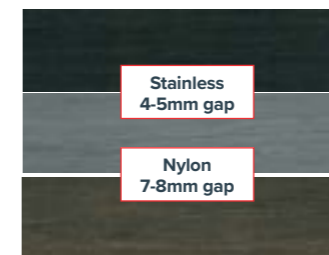

Use porcelain step units where possible
Uniformed shape, prevents cutting and bonding. Can also be used as single sided copings for walls, planters etc

Contrasting Decking steps, highlight and contrasting feature
Seamless fitment with invisible clips

Have a drip groove applied to prevent water staining to your render or upstand

Nylon vs Stainless Composite Decking Clips
Achieve a neater, premium look with Stainless clips – only 4-5mm gap. Nylon clips easier to uplift but larger gap at 7-8mm

EASYJoint Select. New premium jointing compound
Smaller particle size, contemporary colours, suitable for thin joint paving such as Porcelain Paving

Lifetime Guarantee with your Paving Installations when using the 3 part Rock-Tite System

Full Bullnose for additional aesthetics and safety for your steps & copings
